Subject: Bridgeton Dust Funding

Hi Tom,

I've estimated lab expenses will be about \$15,000 based on what we sent in this week. To date, and with these estimated lab costs, we are near the subtask ceiling (\$37,583.97). I would estimate another \$20,000 to complete for reporting and lagging travel expenses. Ted mentioned there is plenty of funding on the 104 umbrella task order (over \$100k I believe) and these existing funds could be used for the Bridgeton Dust subtask. Using the existing funding would just require a letter indicating a new ceiling amount for the subtask.

I don't think we have to do anything immediately, but just wanted to let you know.

Thanks,

Rob
